Portfolio: mohanasundaramnagaraj.github.io/portfolio/

### PROFESSIONAL SUMMARY

Detail-oriented and results-driven **.NET Full-Stack Developer** and **Team Lead** with 5 years of hands-on experience at Spark IT Tech. Expert in **AI-driven development (Vibe Coding)** using **Claude Code** to accelerate project delivery and maintain high-quality standards. Proven track record of managing multiple developers and concurrent projects while upholding **SOLID principles**, **Webhooks**, and **Code Performance Optimization**. Specialized in architecting scalable solutions with .NET Core and modern frontend frameworks like React.

### TECHNICAL SKILLS

**BackEnd:** .NET Core, ASP.NET MVC, C#, Web APIs, Microservices, RESTful APIs, Swagger, Postman.

**FrontEnd:** React, HTML, CSS, JavaScript, jQuery, Bootstrap, Materialize, Themeforest, Velzon, Limitless, UI/UX.

**AI Tools:** Claude Code, AI-Driven Development, Prompt Engineering, GitHub Copilot.

**Server & Database:** SQL Server, Profiler, Hangfire, OAuth, JWT, Webhooks.

**Tools & Version Control:** Git, TFS, Azure DevOps, Agile, Scrum.

**Libraries/Integration:** DevExpress, ag-Grid, DataTables, ELMAH, SeriLog, Razorpay, Google Maps, Leaflet APIs.

**Expertise:** SOLID Principles, Code Review, Performance Optimization, Team Management.

### WORK EXPERIENCE

#### Team Lead & .Net Full-Stack Developer

August 2021 – Present

Spark IT Tech | Tiruppur, TN

- Successfully led the development of multiple web applications, resulting in improved efficiency and user satisfaction.
- Manage multiple developers simultaneously across various projects, ensuring deadline adherence and high-quality software solutions.
- Utilize **Claude Code** for AI-driven development to streamline logic and reduce project delivery time.
- Streamlined development processes by introducing best practices and tools, leading to a significant reduction in project delivery time.
- Demonstrated strong problem-solving skills by efficiently resolving complex technical issues and optimizing application performance.
- Implemented automated testing procedures, resulting in a decrease in bugs and enhancing overall software quality.
- Actively participate in code reviews, providing constructive feedback and enforcing **SOLID principles**.
- Mentor junior developers, sharing expertise to foster professional growth within the team.

#### Freelance Full-Stack Developer

2026 – Present

Self-Employed

- Successfully developed, optimized, and published **Kavinbaala.com** this year.
- Managed end-to-end delivery including architecture, database design, and frontend deployment.

## ACHIEVEMENTS

**Top Performer of the Year (2024):** Awarded on Dec 31, 2024, at Spark IT Tech for consistent excellence in project delivery and leadership.

**Innovator of the Year (2024):** Awarded on Dec 31, 2024, at Spark IT Tech for pioneering AI-driven development workflows and performance optimizations.

## PROJECTS

### Data Exchange (OOP to Salesforce)

Designed a robust data synchronization system for Object-Oriented Programming (OOP) environments to interact with Salesforce using **Webhooks** and RESTful APIs.

### Online Ordering Portal, BackOffice (08/2022 - 10/2023)

Led the development of a user-friendly and secure online ordering portal, contributing to a 30% increase in online sales.

### Supplier Chain Management, Workflow Engine (11/2021 - 07/2022)

Designed and developed a robust system to streamline supplier chain processes, improving efficiency by 20%. Automated complex supply chain processes ensuring smooth operations and reducing manual intervention.

### Vendor Portal (02/2024 - Present)

Streamlined communication, procurement, and collaboration with suppliers via user authentication, registration, and reporting.

### HR Portal (08/2024 - Present)

Digitized and centralized HR functions including payroll, recruitment, attendance, and leave management.

### Business Intelligence (10/2023 - 01/2024)

Integrated for data visualization, providing actionable insights to stakeholders.

### Employee Tracking Application (01/2024 - 02/2024)

Monitored and recorded real-time employee locations using Google Maps/Leaflet APIs to improve field operations.

### Smart Documents (12/2021 - 02/2022)

Enhanced document creation, management, and automation processes.

### Evoucher System (07/2022 - 08/2022)

Reduced paper usage and improved the voucher distribution process.

## EDUCATION

### B.E. Electronics and Communication Engineering

06/2017 - 04/2021

MPNMJ Engineering College | CGPA: 8.82

**Project:** Real-time Android app for Student Management System.

## LANGUAGES

- **English:** Professional Working Proficiency
- **Tamil:** Native or Bilingual Proficiency
